Apprenticeships are increasingly recognised as the gold standard for work-based training. Already, more than 130,000 employers offer Apprenticeships.

Apprenticeships are the equivalent to 5 good GCSE passes. Apprentices work towards work-based learning qualifications such as an NVQ Level 2, Key Skills and, in some cases, a relevant knowledge-based qualification such as a BTEC. These provide the skills you need for your chosen career and allow entry to an Advanced Apprenticeship.

Introduction

The warehousing and storage programme is designed for those working in a warehouse environment performing a range of loading, storing and distribution duties.

Course Content

The NVQ Level 2 course will take approximately 9 to 12 months to complete. You must complete 2 mandatory and 6 optional units.

The two mandatory units are:

- Maintain health, safety and security in logistics operation
- Develop effective working relationships with colleagues in logistics operations

The optional units will be decided with your assessor, depending on your role and responsibilities. The Warehousing and Storage Technical Certificate is designed to test your knowledge of warehousing and will be achieved by completion of a multiple choice online exam. Depending on GCSE results it may be necessary to complete Key Skills in Communication and Numeracy.

Qualification

Upon completion of the programme you will receive an NVQ (OCR certified) and Technical Certificate, along with Key Skills certificates (City & Guilds certified) if required.

Assessment

Continuous assessment during the course through workplace visits, assignments and examinations to achieve set targets. Your portfolio will be checked by an internal verifier and an external verifier.

Entry Requirements

Learners need to be working in a warehouse environment, carrying out duties in line with their role profile working for a minimum of 16 hours per week.
